PROFILE SUMMARY

Entry-level Embedded Engineer with hands-on experience in **Embedded C, microcontrollers, IoT, and RFID** systems. Skilled in hardware interfacing, real-time concepts, and embedded programming with exposure to **ARM, RTOS, ESP8266, and Arduino**. Motivated to build reliable embedded solutions and continuously enhance technical skills.

EDUCATION

B.Tech – Computer Science & Engineering (Cloud Computing)

Uttaranchal University, Dehradun | 2021-2025

CGPA: 8.84/10

Class XII (CBSE): 83% | 2021

Class X (CBSE): 90% | 2019

PROJECTS

Smart Attendance System using RFID

- Designed and implemented an RFID-based automated attendance system using RC522 and ESP8266.
- Displayed real-time status on OLED and transmitted attendance data wirelessly.
- Integrated system with Google Sheets/ Web Server for cloud-based attendance storage.
- Improved accuracy and eliminated manual attendance errors.

Technologies: Embedded C, ESP8266, RFID, Arduino, IoT, Wi-Fi

Home Automation System (IoT):

- Developed an IoT-based system to remotely control electrical appliances.
- Implemented cloud -enabled monitoring and alert-based control.
- Gained hands-on experience in hardware interfacing and embedded programming.

Technologies: Arduino Uno, Embedded C, IoT, Cloud

Resume Builder Web Application:

- Built a full-stack resume builder with multiple templated and PDF download feature.
- Implemented backend database operations and user management.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

INTERNSHIP & TRAININGS

Embedded System Training | Vector India, Bengaluru

- Embedded C, C++, ARM Cortex, RTOS, Device Driver, Microcontrollers.
- Real-time project on 8051, ARM, and Linux device programming.

Intern | Division of Research & Innovation- Uttaranchal University | Dehradun

(June'22 – July 22)

- Built a home automation prototype using C, Arduino Uno, and Cloud Computing to remotely control appliances via smartphone alerts.
- Gained practical exposure in hardware interfacing and cloud-based IoT solutions.

SKILLS

- **Programming Languages:** C, C++, Embedded C, Core Java
- **Embedded Systems:** ARM, RTOS, Device Drivers, Microcontroller (8051, STM32, PIC)
- **Tools & Platforms:** Linux, AWS, Arduino, MySQL, DBMS, Visual Studio Code
- **Web Technologies:** HTML, CSS, JavaScript, PHP
- **Soft Skills:** Problem Analysis, Debugging, Numerical Ability, Embedded Testing
